CHANTS 2019 Program	
09:50 - 10:00	Chairs' Welcome
10:00 - 11:00	Keynote: Ana Aguiar, University of Porto
11:00 - 11:30	Break
11:30 - 12:45	Session 1
	1-Enabling Seamless Container Migration in Shared Edge Platforms *Ali Elgazar (Carnegie Mellon University); Khaled A. Harras (Carnegie Mellon University)*
	2-Redundant Multipath-TCP Scheduling With Desired Packet Latency *Anh Vu Vu (Institute of Communications Technology - Leibniz Universität Hannover); Brenton Walker (Institute of Communications Technology - Leibniz Universität Hannover)*
	3-Towards a Programmable World: Lua-based Dynamic Local Orchestration of Networked Microcontrollers *Fiona Guerin (Technical University of Munich); Teemu Kärkkäinen (Technical University of Munich); Jörg Ott (Technical University of Munich)*
12:45 - 14:00	Lunch break
14:00 - 15:15	Keynote: Mariya Zheleva, University at Albany SUNY
15:15 - 16:30	Session 2
	1-Satisfaction-aware Data Offloading in Surveillance Systems *Pavlos Athanasios Apostolopoulos (University of New Mexico); Marcos Torres (University of New Mexico); Eirini Eleni Tsiropoulou (University of New Mexico)*
	2-Towards Exploiting Wi-Fi Signals From Low Density Infrastructure for Crowd Estimation *Leonardo Tonetto (Technical University of Munich); Moritz Untersperger (Technical University of Munich); Jörg Ott (Technical University of Munich)*
	3-Monitoring Food Storage with the Help of a LoRa-based DTWSN *Björn Gernert (TU Braunschweig); Jan Schlichter (TU Braunschweig); Lars Wolf (TU Braunschweig)*
